

Scrap Metal

The Township of Gillies has a new scrap metal program. Items made of metal must be put into the new roll-off container located at the Landfill Site. If an item has some non-metal components, please remove them to the greatest extent possible before placing the metal item into the container. The following items are prohibited from being placed in the container:

- capacitors
- ballasts
- transformers
- mercury switches or other items containing mercury
- batteries
- refrigerants, freon, CFC
- electronics – televisions, computer monitors, etc.
- radioactive materials
- smoke detectors
- gauges
- propane, acetylene, natural gas, butane bottles (unless valve stems have been removed)
- un-punctured fuel tanks
- hazardous materials – chemicals, solids, liquids, sludge, oils, paints, solvent, fuel, gasoline, water, etc.
- asbestos insulation
- metal containers that do not have two (2) large openings for inspection and a bill of lading stating what the container last contained
- fridge, freezer, air conditioner that is not tagged by a certified dealer that the freon has been removed
- household garbage

If in doubt, please ask the Landfill Attendant for assistance.

Thanks for your cooperation!
